-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 45-51 have been canceled by Applicants.
2. Applicant's election without traverse of Group I (claims 1-44) in the reply filed on 08/30/05 is acknowledged.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-3, 5, 10-21, 25-31 and 35-44 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hazani in view of Forbes.

Hazani discloses all the limitations of claims 1-3, 5, 10-21, 25-31 and 35-44 (Fig. 2A and column 16, lines 57-60, paragraph [0021] and [0027] except for a first dielectric including a high-K-material. However, Forbes (paragraph [0042]) discloses the use of a high-K material for the first dielectric region to reduce the barriers between the substrate and gate insulator and/or between the floating gate and the gate insulator. It would have been obvious to one having ordinary skill in the art at the time the invention was made to use a first dielectric including a high-K material to reduce the barriers between the substrate and gate insulator and/or between the floating gate and the gate insulator.

Allowable Subject Matter

5. Claims 4, 6-9, 22-24 and 32-34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art does not teach or suggest the following:

wherein said control gate comprises a poly-silicon layer, a tungsten nitride barrier layer and a tungsten metal layer.

said non-volatile storage device further comprises a first spacer at one side of said stack and a second spacer at a second side of said stack.
